

July 23, 2024

Update July 23,

Due to current demand levels and remaining supply, we are currently anticipating the run ending around August 5. As always, that could change by a day or two either way depending on demand levels for the rest of the run. Reminder, any unused allocation can be recharged by the District with the landowner receiving 75% credit. Call Nancy or John Michael at the office if you want to get on that list.

If there are any questions please call the office.

Sincerely,

Eric Limas

General Manager
