

July 31, 2024

Update July 31, 2024

Lower Tule will be shutting off at the end of the day August 8th and draining down through the 9th. Growers on the west side of the District could see their water into the following day. You may continue running your allocation until that water is gone in your area.

If there are any questions please call the office.

Sincerely,

Kirk Masters

Water Resources Superintendent
