

May 16, 2023

Based on the current projected water supply and projected cashflows for the remainder of the year, including the unexpected system repair costs due to flood damage, at their May Board meeting, the Lower Tule Board set the **summer water rates at \$85 per acre-foot, beginning June 1**. The current projection is that water deliveries will continue until sometime in October.

As always orders must be placed by 9:00 am for next day delivery.

As always if there are any questions please call the office.

Sincerely,

Eric Limas

General Manager
