

February 26, 2024

The District is going to start a small release from the Tule River Wednesday 2/28/2024. We will putting this water in the rivers and near our Communities. This water will **Not** be available to purchase for landowners at this moment. If we end up having to increase the release we will then open it up for land owner use.

Friant will be commissioning the new gates on LT #1 canal starting tomorrow morning 2/27/2024. this will require a series of opening and closing the gates at different times through out the week. This water will also **Not** be available for land owners to take. As always, this time of year things develop quickly and often change weekly and sometime daily. We will keep everyone as informed as we can through out the next couple of months. Thanks

As always if there are any questions please call the office.

Sincerely,

Kirk Masters

Water Resource Superintendent
