

May 2, 2024

Lower Tule water operations update for May 2 ,2024:

The Bureau of Reclamation allocated yet another block of Class 2 water that needs to be moved quickly to manage the storage level in Millerton.

We are now projecting the current run to end around May 19. This run continues to be open for both irrigation demand and landowner recharge.

As always at this time of year allocations and reservoir operations can change quickly and will update you all as soon as any changes happen.

As always if there are any questions please call the office.

Sincerely,

Eric Limas

General Manager
