

Vandalia Water District Water Supply Notice

February 12, 2026

Dear Landowners,

At the February Board Meeting, the Vandalia Board of Directors set the 2026 water rate at \$230 per acre-foot.

In addition, this email is a reminder that all required backflow prevention devices must be installed and inspected no later than March 1, 2026. Accounts that are not in compliance after March 1, 2026, may be subject to service interruption and/or additional administrative action.

If you have any questions regarding the updated water rate or backflow installation requirements, please contact the District at 559-686-4716.

Thank you,

John Michael Domondon

Operations Manager
