

Vandalia Water District Water Supply Notice

June 17, 2025

Vandalia will be on restricted flows until further notice. We lost our main motor and are working to fix it as fast as possible. That being said, the flows will be prorated to nearly half. If you have a problem with your system running at half flow, please let the office know, and we will take you off the schedule. Sorry for the inconvenience.

Sincerely,

Kirk Masters

Water Resource Superintendent
