

Deposit Requirements for Water Deliveries

Water deliveries to any landowner who owes money to the Districts due from a previous year and to lands rented by those who do not own more than 20 acres within the District shall be secured according to the following formula and procedures:

A deposit consisting of the below formula shall be made prior to the delivery of any water:

$$(\text{Total Acres Rented/Owned}) \times (1.0) \times (\text{Published Water Rate})$$

Example: If the water rate is \$50 per a/f and a renter/owner has 100 acres, then the District will require a deposit of \$5,000.

$$(100) \times (1.0) \times (\$50)$$

When the deposited amount falls below 20% of the total deposit, the user will receive one verbal reminder from the District to reinstate the required deposited amount as per the formula. When the deposited amount falls below 10% of the total required deposit, water deliveries to the user will be terminated. Any unused deposit will be refunded to the user within 45 days of the completion of the water run, or by September 15th, whichever is later.

Water deliveries for renters, secured through a landowner guarantee are not subject to this policy.
